Locating Company Information

Triton College Library subscribes to two databases that provide company information on publicly listed companies. Please note that it is very difficult to locate information on most private companies as they are not required to disclose information for shareholders, investors, or government compliance reasons in the same way that publicly listed companies do.

**Business Insights: Global**

Use *Business Insights: Global*’s ‘Company Finder’ to locate a company by specific parameters or to build a list of companies that fit your parameters.

**Step 1:** Click ‘Company Finder’ under ‘Companies’ on the home page.

**Step 2:** Select your parameters in the box on the left. Be sure to hit update after you enter the information in each option box. Under SIC and NAICS you can pick a specific industry. If there is a company in your list you would like to see more information on, simply click the name of the company.
Step 3: After clicking the name of the company, you will come to a summary page. For more information about the company, click on the links under ‘Company Information’.

Alternatively, you can also search by ‘Company History’, ‘SWOT Reports’, ‘Investment Reports’, or ‘Financial Reports’.

Step 1: Simply click on the desired category under the ‘Companies’ tab from Business Insight: Global’s home page.
Step 2: Type the name of the company you are interested in locating information on.

Step 3: Click on the name of the company to view the report.
Business Source Elite

Use Business Source Elite’s ‘Company Profiles’ to locate company information that includes history, key executives, key financial data, and a SWOT report.

Step 1: Click on ‘Company Profiles’.

Step 2: Type the name of the desired company and click ‘Browse’.
Step 3: Click on the name of the company to view bibliographic information about the report.

Step 4: Click on the PDF icon to view the actual report.
